Brumlovka Talks is our talk show, where we invite personalities, whom we feel have something to say and whose work or personal life is somehow associated with Brumlovka.

**This Month:** Lukáš Nejezchleb, CATERMAT

Lukáš is an entrepreneur at heart and soul. He gained his entrepreneurial spirit and inspiration during his studies in the USA, which he completed in 1998 at the University of Rochester. After returning to the Czech Republic, he joined GE Capital and the investment company Consilium later on. Between 2000 and 2004 he used to develop database apps at Aplis.cz, in which he was a shareholder. He combined his love for food and entrepreneurship to found and open the first „sandwich shop“ in the Czech Republic. Over 20 years in gastronomy, he still enjoys his work, finds it fulfilling and invents innovative solutions. He applies everything in the family company CATERMAT, a successful concept of modern catering. He likes to share his experience during mentoring sessions. He is happily married with three children and a dog. Together and separately, they all like to travel, cycle, cultivate the land and enjoy good food.

# Ice cream shakes from UGO

What's the best thing you can do with fruit in summer? Make ice cream out of it! But you already know that, so UGO have developed the idea and come up with an ice cream shake :-)

The cornerstone is UGO's own ice cream on tap, which is made from 100% unpasteurized fruit juice. The purely fruity component makes up 90% of the ice cream, so you don't feel too sinful when you tuck into it. Both are lactose-free, gluten-free, have no preservatives or artificial colours, and contain no added water. They add just a little sugar and vegetable fat to these for a beautifully creamy consistency, so they're suitable for vegans too. UGO's offers an easy way to freshen up in summer without counting the calories!

There are two types to choose from, with the working names „yellow“ (mango-apricot) and „red“ (strawberry-raspberry). Which colour will you go for?

# ASKO Celsius°Cooking™

hob with built-in ASKO Elevate hood

The 83 cm ASKO Celsius°Cooking™ HIHD854GF smart induction hob includes the built-in ASKO Elevate™ hood, which works on the principle of descending air currents and a unique tower - to bring the extraction surface closer to the pots and the steam produced as you cook. The result is perfectly purified air, yet the hood is very quiet. The hob, in a particularly attractive matt slate-black tempered glass finish, also features Celsius°Cooking™ technology for automatic cooking at precise temperatures. It has an impressive and intuitive user interface and temperature sensors, a probe and an app mean that it interacts smoothly with your cookware. The components communicate wirelessly to precisely control temperature and time, opening up a whole new world of delicious and healthy meals and exciting culinary adventures. A kitchen without a hood to draw attention to the wall or ceiling opens up new perspectives, is free of distracting elements and looks clean.

The hob can be complemented with original ASKO accessories from the Celsius Cooking range: a roasting pan, a chef's pot with a lid and a temperature probe.
