# Head to Work By Motorcycle, Bicycle or Scooter

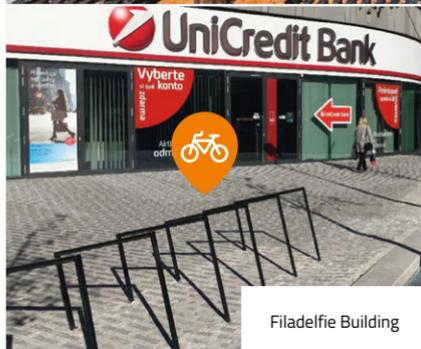

With the arrival of spring, we would like to remind you of the **free motorcycle parking zones** in the southern part of the complex. We ask therefore that motorcycles drivers park only in these designated parking places. These zones have been deliberately set up so that motorcycles drivers don't interfere with disabled citizens when moving around the complex or with other areas around buildings such as main gas valves, access to grease traps, access routes for emergency vehicles, etc. **We're also working on a dedicated motorcycle parking area in the northern part of the complex.**

**Bikes and scooters** can be parked in the bike rooms right in your building or at the bike racks scattered throughout the complex. If you use the very popular LIME scooters or FREEBIKE bicycles, please don't park right in front of building entrances - please use the racks.

**We appreciate your cooperation.**
