

## BB CENTRUM SHUTTLE BUS - Two New Electrobuses

Starting on February 3rd, **two brand-new electrobuses** will operate on the BB1 and BB2 shuttle bus lines (until now these lines were served by 3 diesel buses - now there are 2 electrobuses and 2 diesel buses). These are some of the first electrobuses in full operation in the Prague public transport system. The electrobuses are a joint project of PASSERINVEST GROUP, the ČEZ Group, and the transportation company ARRIVA. **Thanks to this step, the buses now run more frequently than before, and they are also environmentally friendly and low-noise.**
